

ACM Research Reports Second Quarter 2023 Results

FREMONT, Calif., Aug. 04, 2023 (GLOBE NEWSWIRE) -- ACM Research, Inc. ("ACM" or the "Company") (NASDAQ: ACMR), a leading supplier of wafer processing solutions for semiconductor and advanced wafer-level packaging applications, today reported financial results for its second quarter ended June 30, 2023.

"I am pleased with our second quarter results, with strong revenue growth and good profitability, as our operations have largely returned to a "new-normal" following several years of COVID-related disruptions," said ACM's President and Chief Executive Officer, Dr. David Wang. "Our results demonstrate good spending on mature nodes and market share gains at our customer base, together with penetration from new products and new customers."

Dr. Wang continued, "We continue to expect growth in 2023, driven by continued investments in mature node capacity by our China-based customers, and growing traction for our multi-product portfolio. We are moving forward with longer-term growth initiatives, with technical progress for our Track and PECVD platforms, continued evaluation of two cleaning tools at the U.S. facility of a major U.S.-based semiconductor manufacturer, and we plan to deliver our first evaluation tool to a major European semiconductor manufacturer during the fourth quarter of 2023. We are excited to begin initial production at our facility in Lingang, Shanghai later this year, and we continue to expand our operations in Korea to support the global market opportunity."

(1) Reconciliations to U.S. generally accepted accounting principles ("GAAP") financial measures from non-GAAP financial measures are presented below under "Reconciliation of GAAP to Non-GAAP Financial Measures." Non-GAAP financial measures exclude stock-based compensation and, with respect to net income (loss) attributable to ACM Research, Inc. and basic and diluted earnings per share, also exclude unrealized loss on trading securities.

Outlook

The Company is maintaining its revenue guidance range for fiscal year 2023 of \$515 million to \$585 million. This expectation is based on ACM management's current assessment of the continuing impact from international trade policy together with various expected spending scenarios of key customers, supply chain constraints, and the timing of acceptances for first tools under evaluation in the field, among other factors.

Operating Highlights and Recent Announcements

- Shipments. Total shipments in the second quarter of 2023 were \$153 million, up 37% from the second quarter of 2022. Total shipments include deliveries for revenue in the quarter and deliveries of first tool systems awaiting customer acceptance for potential revenue in future quarters.
- **Dividend.** During its June 27, 2023 annual stockholder meeting, the stockholders of ACM Research (Shanghai), Inc. ("ACM Shanghai"), approved, amongst other items, a dividend to be paid to its stockholders. The amount of the approved dividend is RMB 0.372 per share for an aggregate total of approximately RMB 161.3 million (approximately \$22.2 million).
- Auditor Resignation. On July 21, 2023, the Company was informed by Armanino LLP ("Armanino"), the Company's current

independent auditor, that Armanino will resign as the Company's independent registered public accounting firm effective as of the earlier of (a) the date the Company engages a new independent registered public accounting firm or (b) the filing of the Company's Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2023. Armanino advised the Company that its decision to resign was due to Armanino's decision to exit from the practice of providing financial statement audit services to all public companies. In light of Armanino's determination, the Audit Committee of the Company's Board of Directors has initiated a process to select and appoint a new public accounting firm to serve as the Company's independent registered public accountant commencing with the audit of the Company's financial statements for the fiscal year ending December 31, 2023.

Financial Summary

Unless otherwise noted, the following figures refer to the second quarter of 2023 and comparisons are with the second quarter of 2022.

- **Revenue** was \$144.6 million, up 38.5%, reflecting higher sales of single wafer cleaning, Tahoe and semi-critical cleaning equipment, and higher sales of Advance packaging (excluding ECP), services and spares.
- **Gross margin** was 47.5%, up from 42.3%. Non-GAAP gross margin, which excludes stock-based compensation, was 47.6%, up from 42.4%. Gross margin exceeded the range of 40% to 45% reflected in the Company's long-term business model. The increase in gross margin was due to a favorable product mix, improved gross margins for specific product lines, and a favorable impact from fluctuations in the RMB to U.S. dollar exchange rate. The Company expects gross margin to vary from period to period due to a variety of factors, such as product mix, currency impacts and sales volume.
- Operating expenses were \$38.2 million, an increase of 58.4%. Non-GAAP operating expenses, which exclude the effect of stockbased compensation, were \$36.3 million, up 62.9%. Operating expenses as a percent of revenue increased to 26.4% from 23.1%. Non-GAAP operating expenses as a percent of revenue increased to 25.1% from 21.4%.
- **Operating income** was \$30.4 million, up from \$20.0 million. Non-GAAP operating income, which excludes the effect of stock-based compensation, was \$32.4 million, up from \$22.0 million.
- **Unrealized loss on trading securities** was \$2.5 million. The loss reflects the change in market value of the investments by ACM Shanghai in trading securities. The value is marked-to-market quarterly and is excluded in the non-GAAP financial metrics.
- Realized gain from sale of trading securities was \$3.9 million, which generated net proceeds of \$6.6 million.
- Income tax expense was \$7.6 million, compared to \$7.7 million. As a result of a change in Section 174 of the U.S. Internal Revenue Code of 1986, as amended, that became effective on January 1, 2022, the Company's effective tax rate remains elevated, due primarily to the requirement to capitalize and amortize previously deductible research and experimental expenses.
- Net income attributable to ACM Research, Inc. was \$26.8 million, up from \$12.2 million. Non-GAAP net income attributable to ACM Research, Inc., which excludes the effect of stock-based compensation and unrealized loss on trading securities, was \$31.3 million, up from \$14.6 million.
- Net income per diluted share attributable to ACM Research, Inc. was \$0.41, up from \$0.18. Non-GAAP net income per diluted share, which excludes the effect of stock-based compensation and unrealized loss on trading securities, was \$0.48, up from \$0.22.
- Cash and cash equivalents were \$257.4 million at June 30, 2023, versus \$260.4 million at March 31, 2023. Cash and cash equivalents, plus restricted cash and time deposits, were \$376.1 million at June 30, 2023, versus \$381.7 million at March 31, 2023.

Conference Call Details

A conference call to discuss results will be held on Friday, August 4, 2023, at 8:00 a.m. Eastern Time (8:00 p.m. China Time). To join the conference call via telephone, participants must use the following link to complete an online registration process. Upon registering, each participant will receive email instructions to access the conference call, including dial-in information and a PIN number allowing access to the conference call. This pre-registration process is designed by the operator to reduce delays due to operator congestion when accessing the live call.

Online Registration: https://register.vevent.com/register/BI9f104c7f57ab43bea588812dcca24b97

Participants who have not pre-registered may join the webcast by accessing the link at ir.acmrcsh.com/events.

A live and archived webcast will be available on the Investors section of the ACM website at www.acmrcsh.com.

Use of Non-GAAP Financial Measures

ACM presents non-GAAP gross margin, operating expenses, operating income, net income attributable to ACM Research, Inc. and basic and diluted earnings per share as supplemental measures to GAAP financial measures regarding ACM's operational performance. These supplemental measures exclude the impact of stock-based compensation, which ACM does not believe is indicative of its core operating results. In addition, non-GAAP net income attributable to ACM Research, Inc. and basic and diluted earnings per share exclude non-cash change in fair value of financial assets and liabilities and unrealized gain on trading securities, which ACM also believes are not indicative of its core operating results. A reconciliation of each non-GAAP financial measure to the most directly comparable GAAP financial measure is provided below under "Reconciliation of GAAP to non-GAAP Financial Measures."

ACM believes these non-GAAP financial measures are useful to investors in assessing its operating performance. ACM uses these financial measures internally to evaluate its operating performance and for planning and forecasting of future periods. Financial analysts may focus on and publish both historical results and future projections based on the non-GAAP financial measures. ACM also believes it is in the best interests of investors for ACM to provide this non-GAAP information.

While ACM believes these non-GAAP financial measures provide useful supplemental information to investors, there are limitations associated with the use of these non-GAAP financial measures. These non-GAAP financial measures may not be reported by competitors, and they may not be directly comparable to similarly titled measures of other companies due to differences in calculation methodologies. The non-GAAP financial measures are not an alternative to GAAP information and are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures. They should be used only as a supplement to GAAP information and should be considered only in conjunction with ACM's consolidated financial statements prepared in accordance with GAAP.

Forward-Looking Statements

Certain statements contained in this press release are not historical facts and may be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "plans," "expects," "believes," "anticipates," "designed," and similar words are intended to identify forward-looking statements. Forward-looking statements are based on ACM management's current expectations and beliefs, and involve a number of risks and uncertainties that are difficult to predict and that could cause actual results to differ matterially from those stated or implied by the forward-looking statements. A description of certain of these risks, uncertainties and other matters can be found in filings ACM makes with the U.S. Securities and Exchange Commission, all of which are available at www.sec.gov. Because forward-looking statements involve risks and uncertainties, actual results and events may differ materially from results and events currently expected by ACM. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. ACM undertakes no obligation to publicly update these forward-looking statements to reflect events or circumstances that occur after the date hereof or to reflect any change in its expectations with regard to these forward-looking statements or the occurrence of unanticipated events.

About ACM Research, Inc.

The Company develops, manufactures and sells semiconductor process equipment for single-wafer or batch wet cleaning, electroplating, stress-free polishing and thermal processes that are critical to advanced semiconductor device manufacturing, as well as wafer-level packaging. The Company is committed to delivering customized, high performance, cost-effective process solutions that semiconductor manufacturers can use in numerous manufacturing steps to improve productivity and product yield.

ACM RESEARCH, INC. Reconciliation of GAAP to Non-GAAP Financial Measures

As described under "Use of Non-GAAP Financial Measures" above, ACM presents non-GAAP gross margin, operating expenses, operating income, net income attributable to ACM Research, Inc., and basic and diluted earnings per share as supplemental measures to GAAP financial measures, each of which excludes stock-based compensation (SBC) from the equivalent GAAP financial line items. In addition, non-GAAP net income attributable to ACM Research, Inc., and basic and diluted earnings per share exclude unrealized gain on trading securities. The following table reconciles gross margin, operating expenses, operating income, net income attributable to ACM Research, Inc., and basic and diluted earnings per share exclude unrealized gain on trading securities. The following table reconciles gross margin, operating expenses, operating income, net income attributable to ACM Research, Inc., and basic and diluted earnings net income attributable to ACM Research, Inc., and basic and diluted earnings per share exclude unrealized gain on trading securities. The following table reconciles gross margin, operating expenses, operating income, net income attributable to ACM Research, Inc., and basic and diluted earnings per share to the related non-GAAP financial measures:
